Dear Hiring Manager,

I am writing to express my interest in the SAP Technical Support position at EPAM Systems, as advertised. With a strong background in computer science, hands-on experience as an IT Intern at Bridgestone America, and proficiency in both English and Japanese, I am confident in my ability to contribute effectively to your team.

During my IT internship at Bridgestone America, I collaborated with external consultants on business engagements, analyzed business processes, and conducted risk assessments on internal IT programs practices. This experience has equipped me with the skills to effectively communicate with customers to gather business requirements and analyze and translate them into SAP solution designs, which are key responsibilities of the SAP Technical Support role at EPAM Systems.

My hands-on experience in configuring and customizing software aligns with EPAM System's requirement for expertise in SAP SD (Sales and Distribution) or SCM modules. Furthermore, my ability to troubleshoot and provide ongoing support for SAP solutions has been demonstrated through my proactive approach to assisting students in learning how to program in Java as a Computer Science Teaching Assistant at Vanderbilt University.

Moreover, my fluency in English (Native) and proficiency in Japanese language and cultural knowledge, combined with my experience coordinating with employees from Bridgestone's Japanese headquarters, and prior work experience in Japan uniquely position me to work as part of an international project team at EPAM Systems.

I am attracted to EPAM Systems because of the emphasis on employee ideas and the inclusive workplace culture. The extensive opportunities for internal training and self-

development, along with the collaborative environment and exposure to cutting-edge technologies, are all aspects that strongly resonate with my professional aspirations.

I am excited about the opportunity to bring my unique blend of technical expertise, cross-cultural communication skills, and collaborative spirit to EPAM Systems. I would welcome the chance to further discuss how my background, skills, and enthusiasm for SAP Technical Support align with the needs of your team.

Thank you for considering my application. I look forward to the possibility of contributing to EPAM Systems and am available at your earliest convenience for an interview. You can reach me at 319-670-8281 or via email at aidan.j.wendorf@gmail.com.

Warm regards,

Aidan Jinn Wendorf
